

# Project Management for Scientists 2009

## **Exercise 4**

Due on 23 February 2009 at 15:15

### Problem 1

Choose a project you are working on or would like to work on and write down all science requirements and at least 5 other requirements.

### Problem 2

Come up with a scientific idea for a proposal that you will or would like to write. Identify a potential funding/grant source and obtain the current or previous request for proposals.
