

# Project Management for Scientists 2011

## **Exercise 6**

Due on 30 May 2011 at 11:00 by email to [C.U.Keller@uu.nl](mailto:C.U.Keller@uu.nl) with the subject line PMSci2011: Exercise 6

### Problem 1

Use the WBS from the previous exercise (writing a scientific paper in your field of work with three other co-authors) and determine the task dependencies. Make a table that shows a list of tasks and the tasks they depend on (predecessors).

### Problem 2

Use OpenProj (<http://openproj.org/>) to enter the resource assignments and task dependencies and generate a schedule. Submit a screenshot or PDF file of the schedule.
