

Project Management for Scientists 2015

Exercise 4

Due on 8 October 2015 at 13:45

Problem 1

Choose a project you are working on or would like to work on and write down a complete set of top-level science requirements and at least 5 other requirements.

Problem 2

Come up with a scientific idea for a proposal that you will or would like to write. Identify a potential funding/grant source and obtain the current or previous request for proposals.
